<sup>1</sup> Changes in committee are reported to the GCTS in the Student Progress Report. All changes of supervisor must be approved by the Associate Director, Graduate Programs.

The confirmed supervisor and supervisory committee assist students in preparing the thesis prospectus (see §C7), the general examinations (see §C8), and the thesis proposal (see §C9). The committee is consulted throughout the writing of the thesis (see §C10), is involved in its submission process (see §C11) and takes part in the final oral examination (see §C12).

Changes of supervisor and/or changes in the thesis topic after the approval of the thesis proposal may require a new thesis proposal, and possible additions to the student's program in light of the degree regulations.

<sup>2</sup> The thesis proposal is normally completed within three months of the completion of the General Examinations, and by the end of the third year (see §C1.3).

Should the student later make substantial changes in their approach to the thesis, the student should consult with their supervisor on the advisability of submitting a new thesis proposal §C9.6.

<sup>3</sup> Research on human subjects may not be carried out without prior REB approval. REB approval must be renewed yearly; students may not continue research with an expired REB approval, as per REB regulations and MOA agreement. The research ethics protocol may be closed with the REB once the analysis is complete. Any research on human subjects carried out without REB may not be used in the final thesis.

#### <sup>4</sup> Year 3

General examinations and thesis proposal must be completed by the end of year 3. The thesis proposal is submitted within three months of general examina-tions; see §C4.3.

#### Year 4

Thesis research and writing; final oral examination
