### College Submission of Courses to be Offered in the 2027-28 Academic Year

Colleges should submit a draft of their 2027-28 course offerings by **January 8, 2027**. The submissions should include the session (Fall, Winter or Summer), the anticipated day/time, delivery mode, and programs using the course. The inclusion of the instructor's name is helpful but not essential.

Submissions will be made available to colleges and Academic Councils and Committees for review for duplication and omissions before the submission of final schedules for upload to the TST website.

Please use only the 2027-28 Draft Course Offering Template (not the template used for course upload to the TST website) for your January submission; this is a condensed version and will be used by several committees for review of courses.

Final submission for posting to the TST website must be received by **February 24, 2027**. This final submission must include the day/time and delivery mode and instructor if they are core faculty.

2027-28 course offerings go live on the TST website on **April 1, 2027**.
